

MISTING

MIST-A-WAY SYSTEMS

is the leading manufacturer of outdoor misting systems for control of mosquitoes, spiders, no see 'ums and other annoying insects. The systems offer an excellent platform for creating a new and profitable multi-year relationship with your customer. MistAway's innovative technology sets the industry standard with agitation, leak detection, and anti-siphon capabilities.

Range of Units Available

PYSTOL® MISTING CONCENTRATE

contains natural pyrethrins for quick knockdown. PYSTOL controls fleas, flies, and mosquitoes for application with residential and barn misting systems. 2.5 gallons makes 55 gallons of misting solution.

2.5 Gallon Jug – 790004

RIPTIDE® WATER-BASED PYRETHRIN ULV

is an optimized formulation specially designed to deliver fast knockdown and kill of mosquitoes when used in residential misting systems. Riptide's optimized ratio of Pyrethrum and PBO [1:5] effectively controls mosquitoes and other flying insects. Riptide's polymeric waterbased technology is designed for stability in misting system and is easy on landscape plants.

64 Ounce Bottle – 747826

55 Gallon Drum – 791352

SECTOR® MISTING CONCENTRATE

is a water-based insecticide designed for misting systems. Sector's unique formula combines Permethrin with PBO for a higher level of performance. Sector provides knockdown, kill, and residual control of the toughest flying insect problems, including mosquitoes or hard-to-kill insects such as gnats, biting midges and no see 'ums. Sector's polymeric waterbased technology is designed for stability in misting system and is easy on landscape plants.

64 Ounce Bottle – 775565

1 Gallon Jug – 793402

55 Gallon Drum – 775723

VAMPYRE® MISTING CONCENTRATE

features the highest performing ratio of Pyrethrum to PBO [1:10] available and delivers the fastest knockdown and kill of a broad range of insects. VamPyre is ideal for hard-to-kill insect species such as stable flies, horse flies, face flies, deer flies, house flies, mosquitoes (including the Culex species that may carry the West Nile Virus), and gnats. VamPyre's unique microemulsion formulation is stable in solution and is easy on ornamental plants.

1 Gallon Jug – 742722

VECTOR-BAN™

is a long-lasting premises and misting concentrate that provides knockdown, broad-spectrum insecticidal effectiveness and excellent residual activity for up to 28 days. For residential and barn misting systems.

64 Ounce Bottle – 779243

VECTOR-BAN™ PLUS

is an extremely versatile synergized concentrate for use in misting systems and general pest control indoors and outdoors. Controls mosquitoes, flies, gnats, wasps, bees, ticks, cockroaches, spiders, and other nuisance insects. 1/2 gallon makes 55 gallons of misting solution.

**8 Ounce Bottle – 788263
64 Ounce Bottle – 788267**

TROIKA

Troika® Misting Concentrate is a water-based misting product designed for use in automatic spraying systems. The concentrated formulation delivers effective knockdown and kill of flying insects including hard-to-kill flies, midges, gnats and mosquitoes, including those that may transmit West Nile Virus and Chikungunya Virus. Troika's water-based polymeric surfactant system is stable in solution and will not harm most common ornamental plants. The concentrate is available in a convenient 64oz package size, reducing packaging waste and making it easy to handle.

64 Ounce Bottle – 815226
