NEWS FOR THE CANADIAN ProVM MARKET

## MEET OUR PEST CONTROL EXPERTS

Did you know that Univar Environmental Sciences delivers more than just Vegetation Management products and know-how? We have a dedicated team

in Canada providing solutions for Pest Management Professionals too. Let me be clear, “Pest” is a broad term and many of you would call a weed a pest, we wouldn’t argue that. In this case however, we are referring to those pests that are mobile, and controlling these pest problems comes with its own set of challenges. Whether its bed bugs, mosquitos, rodents or wildlife in residential or commercial structures, Univar has the expertise to help pest management professionals solve these pest problems, and all the products required to get the job done.

Stationed out of Mississauga Ontario, our ProCenter location features a storefront for shopping, along with a

dedicated warehouse and logistics services to cover the country.

Pestweb.ca is the hub for all things pest control in Canada. Information on products from Univar, pest information and ID tools, and services such as ProTraining and ask Mr. Pest Control. It’s all in one place and it will look very familiar to ProVMWeb users, so navigation is simple.

To get in touch with one of our pest experts, start with customer service by phoning [1-888-838-4112](tel:1-888-838-4112) or emailing [Univar.ES.Pest.CustomerService@univarcanada.com](mailto:Univar.ES.Pest.CustomerService@univarcanada.com). Or start with any one of your favorite Univar reps, we are always happy to help connect you to the right person.

Helping professionals solve all “Pest” problems with expertise and the right products, it’s what we do.

## Krovar®

### Product Retirement Bonus Rewards

#### Earn 2000 BONUS POINTS Per Bag!

KROVAR® I DF Herbicide is a dry flowable to be mixed in water and applied where bare ground is desired. It is an effective residual herbicide for the control of many annual and perennial weeds, and is particularly useful for control of perennial grasses. The product has been discontinued in Canada and must be applied prior to December 31, 2018.

Offer expires June 30th, 2017. Available while supplies last.
