

Protecta® Micro

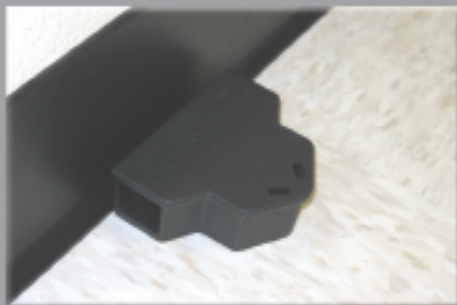

Tamper-Resistant Mouse Bait Station

COMPACT SIZE – BIG VALUE

Compact size and unique shape fit virtually anywhere.

Bait compartment provides secure fit for one Bell Blox bait.

Protecta® Micro

✓ Fully-functional

- Compact size provides discreet, out-of-view placement in tight baiting areas
- Fits where other stations can't – gets bait close to the pest
- Rigid, heavy-duty plastic polymer construction

✓ Easy-to-Use

- Existing Bell two-prong key provides easy access without extra hassle
- Blox drop easily into bait compartment for a secure fit
- Automatically locks when closed keeping bait away from intruders

✓ Improves Control Measures

- Mice are nervous nibblers, eating small amounts in many locations
- Increasing bait placements increases the effectiveness of a mouse control program
- Protecta Micro is economically priced to allow for more placements without increasing cost
