Our inspiration was to design an insect light trap that incorporates all the feedback from our customers into one great product.

The result is an unmatched **premium industrial insect trap.**

STAINLESS STEEL

Extremely durable, commercial grade construction withstands harsh environments and lasts longer.

LARGE GLUEBOARD

Mounting and leveling made easy with the built in mounting slots. It traps more insects as compared to other models.

EASY INSTALLATION

Traps come assembled all you have to do is easily mount it on the wall.

CONFORMS TO IP65 RATING

The iFly65 is waterproof and dust tight and made to withstand harsh/wet environments.
