Bio Foam™

The Single Most Effective Product For Eliminating Scum, Odors and Organic Build-up in Commercial Kitchens

Product Codes:

IBFC016: 16 oz squeeze-n-measure bottle

IBFC128: 1 gallon jug with pump top

The Ultimate Green Cleaner that Works More Effectively than Simple Chemical Cleaners

In areas of chronic moisture and organic matter.

Super-concentrated Foaming Formula Contains a Blend of Premium, Natural Microbes and Citrus Oil

For eliminating scum, odors and organic build-up.

The Powerful Probiotics Actually Digest Organic Matter

The microbe spores activate when in contact with their food source (organic debris).

Designed to integrate with the Foamer Simpson™ Pump-up Foamer or a Power Foamer for Application

To be diluted with water at a rate of 1 oz per quart (foaming agent already included).

The Foam Coats Scummy Areas to Provide a Longer Contact Time

Ideal for treating drains, baseboards, machinery cracks, under counters and equipment, beverage line bundles, beverage fountain drip trays, voids around dishwashers and tray conveyors and any other scummy areas.

Applicable for both food and non-food areas in commercial, residential, industrial, institutional agricultural, educational and other establishments - also in transport vehicles

Contains No Harsh Chemicals or Fumes

Will Not Harm Septic Systems or Municipal Water Treatment Operations

Green Zone™ Product

Naturally derived active ingredient. Suitable for green service programs.
